Per our conversation, there is a change to the vehicle line up. We will now ask for the below vehicles. I am also attaching an updated budget to reflect this change. Please let me know if anyone sees anything out of place. Thank you!

**Florence – We will mirror this same request.*

I believe, but always open to recommendations, that we will have a two advance teams - security/staff and security staff that will need to operate independently from the delegation to conduct their advances.

Let's go with that same request for Bologna, at least to start.

And yes - I would guess that one of the 8 PAX vans would still be needed for motorcade transport, unless the numbers of seats needed are reduced further.

Correct me if I'm wrong, just want to be sure we are following:

Agree, that one 8 PAX for advance pick-up is good due to reduced advance staff.

On game day, your thought is to keep one 8 PAX van, drop the secondary 8 PAX we originally had in play, and replace that with (2) sedans? If so, we can do this. Seems the numbers still work for transport for everyone. Let me know and I will reach out to our motorpool for the switch and adjust the vehicle numbers on the budget.

Thoughts on advance vehicles.

Just based on my experience, my first thoughts is the 8 PAX vehicle for the advance phase is perfect.

But starting on game day, but suggestion is to move to two (2) sedans with drivers to enable the advance team members - both staff and security - to be able to bounce ahead and have leap frog ability to cover the various sites.

The van can likely be kept and used as the staff transport for the motorcade - based on manifest requirements.

I would assume we would be looking at something similar in Bologna, though the one main site is the G7.

Thoughts?
